Education

University of Ottawa

BASc Software Engineering 2019

Third year

Motivated full stack web developer with the ability to grasp new concepts quickly. Developed an on-boarding and off-boarding web app, a unique resume website, and a server maintenance web app. Passionate about learning new technologies and developing for multiple platforms.

Experience

Canada Revenue Agency

Web Developer   09/2017 - 12/2017

- Full stack web developer responsible for an internal web app used by hundreds of team supervisors everyday.
- Utilized PHP to implement the MVC design pattern.
- Built a data import system that parsed XML and increased response times by a factor of 300.
- Worked directly with clients to gain feedback in order to boost user satisfaction.
- Upgraded pre-existing tool and boosted project designer's productivity by a factor of 5.

Canada School of Public Service

Web Support CO-OP   01/2017 - 04/2017

- Full stack web developer responsible for end-to-end web app development.
- Worked directly with the clients to collect requirements and present prototypes.
- Designed and built a web app that increased efficiency of routine server checks by a factor of 10.
- Upgraded the development team's change-logging system resulting in no data loss.

Projects

LCB-GO   06/2017 - 07/2017

- Developed an Android app end-to-end in collaboration with other developers.
- Managed the project and delegated tasks to team members in order to ensure that the development process was completed within the required timeframe.
- Conducted user interviews in order to increase user experience.
- Utilized Firebase in order to allow for real-time requests.

Awards

University of Ottawa · Nortel Networks Admission Scholarship   2015
